Subject: Microsoft Settlement

To Whom It May Concern,

I'm opposed to the settlement with Microsoft as it currently stands. I believe it let's Microsoft "off the hook" and fails to either 1)Remedy past problems brought on by Microsoft's monopolistic abuse, and 2)Protect either a)consumers, or b)the rest of the computer industry, from future abuse by Microsoft.

Microsoft must be made to see the error of their ways. The consistent arrogance they have displayed at every opportunity when their monopolistic and intimidating business practices are called into question makes it clear that Microsoft has NOT learned their lesson.

Please do your part to ensure the continued health and growth of the technology and software industries by reining in a company bent on total domination with a proven track record of squashing promising companies like Netscape.

Sincerely,
Nick Silberstein
